The Hospital Medicines List (HML)

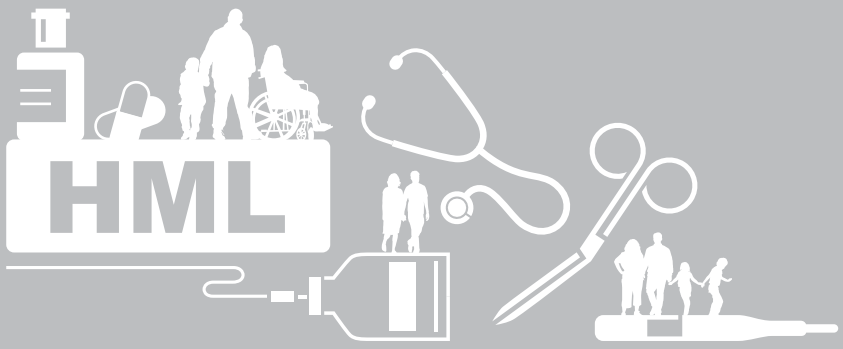
Section H

for Hospital Pharmaceuticals

Update

Effective 1 January 2014

Cumulative for November, December 2013 and January 2014



PHARMAC
Pharmaceutical Management Agency

Contents

Summary of decisions
EFFECTIVE 1 JANUARY 2014

- Eltrombopag (Revolade) tab 25 mg and 50 mg – new listing
- Aspirin (Ethics Aspirin EC) tab 100 mg – new listing
- Cilazapril with hydrochlorothiazide (Apo-Cilazapril/Hydrochlorothiazide) tab 5 mg with hydrochlorothiazide 12.5 mg - new listing
- Diltiazem hydrochloride (Cardizem CD) cap long-acting 120 mg – new listing
- Diltiazem hydrochloride (Apo-Diltiazem CD) cap long-acting 120 mg – HSS suspended
- Bosentan (pms-Bosentan) tab 62.5 mg and 125 mg – price decrease
- Potassium permanganate, crystals – new listing
- Ethinyloestradiol with levonorgestrel (Ava 20 ED) tab 20 mcg with levonorgestrel 100 mcg and 7 inert tablets – new listing
- Ethinyloestradiol with levonorgestrel (Ava 30 ED) tab 30 mcg with levonorgestrel 150 mcg and 7 inert tablets – new listing
- Sodium citro-tartrate (Ural) grans eff 4 g sachets – price increase
- Ceftriaxone (Ceftriaxone-AFT) inj 500 mg, 1 g and 2 g vial – new listing
- Amoxycillin (Apo-Amoxi) cap 250 mg – new listing
- Phenoxymethylpenicillin [Penicillin V] (Cilicaine VK) cap 250 mg and 500 mg – price increase
- Nystatin (Nilstat) tab 500,000 u and cap 500,000 u – price increase
- Zanamivir (Relenza Rotadisk) powder for inhalation 5 mg – new listing
- Ibuprofen (Fenpead) oral liq 20 mg per ml – price decrease
- Lorazepam (Ativan) tab 1 mg and 2.5 mg – price increase
- Erlotinib (Tarceva) tab 100 mg and 150 mg – price decrease and amendment of restriction
- Azathioprine (Imuran) inj 50 mg vial – price increase
- Fluticasone with salmeterol (Seretide) aerosol inhaler 50 mcg with salmeterol 25 mcg and aerosol inhaler 125 mcg with salmeterol 25 mcg – removal of restriction
- Fluticasone with salmeterol (Seretide Accuhaler) powder for inhalation 100 mcg with salmeterol 50 mcg and powder for inhalation 250 mcg with salmeterol 50 mcg – removal of restriction
- Timolol (Timoptol XE) eye drops 0.25%, gel forming and eye drops 0.5%, gel forming – addition of HSS
- Influenza vaccine (Influvac and Fluarix) inj 45 mcg in 0.5 ml syringe – new listing

	Price (ex man. Excl. GST) $	Per	Brand or Generic Manufacturer

Section H changes to Part II

Effective 1 January 2014

BLOOD AND BLOOD FORMING ORGANS

25 ELTROMBOPAG

➔ Tab 25 mg	1,771.00	28	Revolade
➔ Tab 50 mg	3,542.00	28	Revolade

Restricted
Haematologist
Initiation (idiopathic thrombocytopenic purpura – post-splenectomy)
Re-assessment required after 6 weeks.
All of the following:
1. Patient has had a splenectomy; and
2. Two immunosuppressive therapies have been trialled and failed after therapy of 3 months each (or 1 month for rituximab); and
3. Either:
   3.1. Patient has a platelet count of ≤20,000 platelets per microlitre and has evidence of active bleeding; or
   3.2. Patient has a platelet count of ≤10,000 platelets per microlitre.

Initiation - (idiopathic thrombocytopenic purpura – preparation for splenectomy)
Re-assessment required after 6 weeks.
The patient requires eltrombopag treatment as preparation for splenectomy.

Continuation – (idiopathic thrombocytopenic purpura – post-splenectomy)
Re-assessment required after 12 months
The patient has obtained a response (see note) from treatment during the initial approval or subsequent renewal periods and further treatment is required.
Note: Response to treatment is defined as a platelet count of >30,000 platelets per microlitre.

28 ASPIRIN

Tab 100 mg – **1% DV Mar-14 to 2016**	10.50	990	**Ethics Aspirin EC**
	1.60	90	**Ethics Aspirin EC**

CARDIOVASCULAR SYSTEM

33 CILAZAPRIL WITH HYDROCHLOROTHIAZIDE

Tab 5 mg with hydrochlorothiazide 12.5 mg			
– **1% DV Mar-14 to 2016**	10.72	100	**Apo-Cilazapril/ Hydrochlorothiazide**

Note – Inhibace Plus tab 5 mg with hydrochlorothiazide 12.5 mg to be delisted from 1 March 2014.

37 DILTIAZEM HYDROCHLORIDE (HSS suspended and new brand listed)

Cap long-acting 120 mg			
– 5% DV Feb-13 to **31/12/13** ~~2015~~	31.83	500	Apo-Diltiazem CD
	1.91	30	Cardizem CD

43 BOSENTAN (↓ price)

➔ Tab 62.5 mg	1,500.00	60	pms-Bosentan
➔ Tab 125 mg	1,500.00	60	pms-Bosentan

➔ Restriction
(Brand) indicates a brand example only. It is not a contracted product.

		Price (ex man. Excl. GST) $	Per	Brand or Generic Manufacturer

➔ Tab 100 mg	1,133.00	30	Tarceva
➔ Tab 150 mg	1,700.00	30	Tarceva

Restricted
Initiation
Re-assessment required after 3 months
~~Both:~~
~~1 Patient has advanced, unresectable, Non Small Cell Lung Cancer (NSCLC); and~~
~~2 Patient has documented disease progression following treatment with first line platinum based chemotherapy;~~
Either
1 All of the following:
1.1 Patient has locally advanced or metastatic, unresectable, non-squamous Non Small Cell Lung Cancer (NSCLC); and
1.2 There is documentation confirming that the disease expresses activating mutations of EGFR tyrosine kinase; and
1.3 Either
1.3.1 Patient is treatment naïve; or
1.3.2 Both:
1.3.2.1 Patient has documented disease progression following treatment with first line platinum based chemotherapy; and
1.3.2.2 Patient has not received prior treatment with gefitinib; and
1.4 Erlotinib is to be given for a maximum of 3 months, or
2 The patient received funded erlotinib prior to 31 December 2013 and radiological assessment (preferably including CT scan) indicates NSCLC has not progressed.

Continuation
Re-assessment required after 6 months
Radiological assessment (preferably including CT scan) indicates NSCLC has not progressed.

189	INFLUENZA VACCINE			
	➔ Inj 45 mcg in 0.5 ml syringe	90.00	10	Influvac Fluarix

Effective 1 December 2013

GENERAL RULES

2 Introducing PHARMAC

PHARMAC, the Pharmaceutical Management Agency, is a Crown entity established pursuant to the New Zealand Public Health and Disability Act 2000 (The Act). The primary objective of PHARMAC is to secure for eligible people in need of pharmaceuticals, the best health outcomes that are reasonably achievable from pharmaceutical treatment and from within the amount of funding provided.

The PHARMAC Board consists of up to six members appointed by the Minister of Health. All decisions relating to PHARMAC's operation are made by or under the authority of the Board. More information on the Board can be found at www.pharmac.govt.nz.

The functions of PHARMAC are ~~to perform~~ **set out in section 48 of the Act. PHARMAC is required to perform these functions** within the amount of funding provided to it ~~in the Pharmaceutical Budget or to DHBs from their own budgets for the use of pharmaceuticals in their hospitals, as applicable,~~ and in accordance with its ~~annual plan~~ **statement of intent** and any directions given by the Minister (Section 103 of the Crown Entities Act).

The Government has agreed that PHARMAC will assume responsibility for the assessment, prioritisation and procurement of medical devices on behalf of DHBs. Medical devices come within the definition of Pharmaceuticals in the Act.

PHARMAC is assuming responsibility for procurement of some medical devices categories immediately, as a first step to full PHARMAC management of these categories within the Pharmaceutical Schedule.

4 "Give" means to administer, provide or dispense **(or, in the case of a Medical Device, use)** a Pharmaceutical, or to arrange for the administration, provision or dispensing **(or, in the case of a Medical Device, use)** of a Pharmaceutical, and "Given" has a corresponding meaning.

5 **"National Contract" means a contractual arrangement between PHARMAC and a Pharmaceutical supplier which sets out the basis on which any Pharmaceutical may be purchased for use in a DHB Hospital, including an agreement as to a national price.**

6 2 Hospital Pharmaceuticals

2.2 Section H Part III lists Optional Pharmaceuticals that PHARMAC and the relevant ~~pharmaceutical supplier~~ **Pharmaceutical supplier** have entered into contractual arrangements for the purchase of, including an agreement on a national price and other obligations such as HSS. DHB Hospitals may choose whether or not to fund the Optional Pharmaceuticals listed in Part III of Section H, but if they do, they must comply with any National Contract **requirements**. ~~obligations.~~

continued...

Changes to Section H Part II – effective 1 December 2013 (continued)

continued...

2.3 Section H Part II does not encompass the provision of pharmaceutical treatments for DHB Hospital staff as part of an occupational health and safety programme. DHBs Hospitals may choose whether or not to fund pharmaceutical treatments for such use, but if they do, they must comply with any National Contract **requirements**. ~~obligations.~~

6 2.1 Section H Part II contains the list of Hospital Pharmaceuticals that must be funded by DHB Hospitals. Section H Part II does not currently encompass the following categories of pharmaceuticals **except for any items specifically listed in this Section H Part II**:

a) Medical Devices;
b) whole or fractionated blood products;
c) diagnostic products which have an ex vivo use, such as pregnancy tests and reagents;
d disinfectants and sterilising products, except those that are to be used in or on a patient;
e) foods and probiotics;
f) radioactive materials;
g) medical gases; and
h) parenteral nutrition.

Subject to rule 2.2, the funding of pharmaceuticals identified in a) – h) above is a decision for individual DHB Hospitals.

8 18 Hospital Pharmaceutical Contracts

18.1 A DHB Hospital may enter into a contract for the purchase of any Pharmaceutical, **including any Medical Device**, that it is entitled to fund in accordance with this Schedule H and that is not a National Contract Pharmaceutical, provided that such a contract:

a) does not oblige the relevant DHB Hospital to purchase a volume of that Pharmaceutical, if that Pharmaceutical is a DV Pharmaceutical, that is greater than the relevant DV Limit;
b) enables PHARMAC to access and use future price and volume data in respect of that Pharmaceutical; and
c) enables the relevant DHB Hospital to terminate the contract or relevant parts of the contract in order to give full effect to the ~~national~~ **National** ~~contract~~ **Contract** on no more than 3 months' written notice to the ~~pharmaceutical~~ supplier.

18.3 Following written notification from PHARMAC that a Pharmaceutical is a National Contract Pharmaceutical, either through Section H updates or otherwise, DHB Hospitals must, unless PHARMAC expressly notifies otherwise:

a) take any steps available to them to terminate pre-existing contracts or relevant parts of such a contract, and
b) not ~~to~~ enter any new contracts or extend the period of any current contracts, for the supply of that National Contract Pharmaceutical or the relevant chemical entity **or Medical Device**.

9 19 National Contract Pharmaceuticals

19.1 DHB Hospitals must take all necessary steps to enable any contracts between PHARMAC and a ~~pharmaceutical~~ **Pharmaceutical** supplier in relation to National Contract Pharmaceuticals to be given full effect.

19.2 The contractual arrangement between PHARMAC and the relevant ~~pharmaceutical~~ supplier of a National Contract Pharmaceutical requires it to be made available by for purchase at the relevant Price by any or all of the following:

a) DHB Hospitals at Designated Delivery Points; and/or
b) Contract Manufacturers (expressly for the purpose of compounding).

In the case of Medical Devices, a National Contract may require the Medical Device to be purchased by, and/or supplied to, a third party logistics provider.

continued...

➔ Restriction
(Brand) indicates a brand example only. It is not a contracted product.

Changes to Section H Part II – effective 1 December 2013 (continued)

continued...

10 22.1 DHB Hospitals must provide to PHARMAC, on a monthly basis in accordance with PHARMAC's requirements, any volume data and, unless it would result in a breach of a pre-existing contract, price data held by those DHB Hospitals in respect of any ~~Hospital Pharmaceuticals listed in Part II of Section H of the Schedule~~ **Pharmaceutical (including any Medical Device) listed in Section H**.

ALIMENTARY TRACT AND METABOLISM

12 MESALAZINE

52 LEVONORGESTREL (amendment to restrictions)

➔ Intra-uterine system, 20 mcg per day

Restricted

Obstetrician or gynaecologist

Initiation – heavy menstrual bleeding

All of the following:

1 The patient has a clinical diagnosis of heavy menstrual bleeding; and

2 The patient has failed to respond to or is unable to tolerate other appropriate pharmaceutical therapies as per the Heavy Menstrual Bleeding Guidelines; and

3 ~~Either~~ **Any of the following:**

3.1 Serum ferritin level < 16 mcg/l (within the last 12 months); or

3.2 Haemoglobin level < 120 g/l**; or**

3.3 The patient has had a uterine ultrasound and either a hysteroscopy or endometrial biopsy.

Continuation – heavy menstrual bleeding

Either:

1 Patient demonstrated clinical improvement of heavy menstrual bleeding; or

2 Previous insertion was removed or expelled within 3 months of insertion.

Initiation – endometriosis

The patient has a clinical diagnosis of endometriosis confirmed by laparoscopy.

Continuation – endometriosis

Either:

1 Patient demonstrated satisfactory management of endometriosis; or

2 Previous insertion was removed or expelled within 3 months of insertion.

Note – Endrometriosis is an unregistered indication.

INFECTIONS

61 CEFOXITIN (change to brand name)

MUSCULOSKELETAL SYSTEM

88 BENZBROMARONE (addition of note)

➔ Tab 100 mg	45.00	100	Benzbromaron AL 100

Restricted
Both:
1 Any of the following:
- 1.1 The patient has a serum urate level greater than 0.36 mmol/l despite treatment with allopurinol at doses of at least 600 mg/day and appropriate doses of probenecid: or
- 1.2 The patient has experienced intolerable side effects from allopurinol such that treatment discontinuation is required and serum urate remains greater than 0.36 mmol/l despite appropriate doses of probenecid; or
- 1.3 Both:
  - 1.3.1 The patient has renal impairment and serum urate remains greater than 0.36 mmol/l despite optimal treatment with allopurinol (see Note); and
  - 1.3.2 The patient has a rate of creatinine clearance greater than or equal to 20 ml/min; or
- 1.4 All of the following:
  - 1.4.1 The patient is taking azathioprine and requires urate-lowering therapy; and
  - 1.4.2 Allopurinol is contraindicated; and
  - 1.4.3 Appropriate doses of probenecid are ineffective or probenecid cannot be used due to reduced renal function; and

2 The patient is receiving monthly liver function tests.

Notes: Benzbromarone has been associated with potentially fatal hepatotoxicity. Optimal treatment with allopurinol in patients with renal impairment is defined as treatment to the creatinine clearance-adjusted dose of allopurinol then, if serum urate remains greater than 0.36 mmol/l, a gradual increase of the dose of allopurinol to 600 mg or the maximum tolerated dose.

The New Zealand Rheumatology Association has developed information for prescribers which can be accessed from its website at http://www.rheumatology.org.nz/benzbromarone_prescriber_information.cfm
