## News Stories – May 2019 Update

---

### Changed listings

#### Lamotrigine brand change

A brand change for people using lamotrigine will commence on 1 May 2019. People who are not already using the Logem brand of lamotrigine will have five months to change to it. The Lamictal and Arrow-lamotrigine brands will be delisted on 1 October 2019. There will be no reference pricing (subsidy reduction) for these brands during the transition period.

A brand switch fee will apply to dispensings of Logem from 1 October 2019 until 31 December 2019. Three months all-at-once (STAT) dispensing will commence for lamotrigine from 1 October 2019.

We sought expert clinical advice to make sure it was appropriate for people to change brands of lamotrigine. More information about the decision can be found on our website at: <https://www.pharmac.govt.nz/news/notification-2019-04-11-lamotrigine/>

Further information on the change can be found on our website under the “My Medicine Has Changed” page. Patient information leaflets will be available to order or download from [www.pharmaonline.co.nz](http://www.pharmaonline.co.nz).

#### Insulin pump

From 1 May 2019, we are correcting the presentation description for Tandem t:slim X2 insulin pumps. The supplier, New Zealand Medical and Scientific has confirmed that the minimum basal rate is 0.1 U/h, and not 0.001 U/h as currently listed. The basal rate increments for the Tandem t:slim X2 insulin pumps are 0.001 U/h.

#### Rivaroxaban

From 1 May 2019, up to 14 rivaroxaban 15 mg tablets will be available on a PSO.

#### Doxycycline (Doxine) tab 100 mg

From 1 May 2019, we are listing a 500 tablet pack of Doxine (doxycycline) 100 mg tablets. The 250 tab pack size will be delisted 1 November 2019.

## Pizotifen (Sandomigran)

The bottle presentation of Sandomigran 500 mcg tablets is now registered. The s29 symbol and wastage will be removed from the listing of Sandomigran from 1 May 2019.

The blister presentation of Sandomigran 500 mcg tablets (Pharmacode 251666) will be delisted from 1 November 2019.

## Nutricia enteral feeds

Nutricia are changing the packaging for their enteral feeds from March 2019 through to 2020. The new packaging for Nutrison and Nutriini will be in bottles. New Pharmacodes will be listed as the new products become available.

## Stock issues

### Levodopa with carbidopa (Sinemet)

Merck Sharpe and Dohme (MSD) have advised us of a supply issue with Sinemet. We are working with MSD and other suppliers to ensure ongoing supply of levodopa with carbidopa. This is what is happening with each presentation:

- 100/25 mg (immediate release) tablets: the Kinson brand is available and proposed delisting of this brand has been delayed until further notice.
- 200/25 mg tablets: an alternative presentation (United States packaging) of Sinemet 250/25 is available
- 200/50 long acting tablets: stock of this strength is in short supply and we have not been able to secure an alternative. From 1 May 2019, we are listing an alternative half strength, 100/25 mg long-acting tablets (Mylan), supplied under section 29 of the Medicines Act, 1981.

### Acarbose tablets

From 1 May 2019, an additional brand of acarbose 50 mg tablets will be listed due to an ongoing supply issue. The Accarb brand will be supplied via section 29 of the Medicines Act, 1981.

### Phenelzine sulphate tablets

From 1 May 2019, an alternative brand of phenelzine sulphate (Nardil S29) 15 mg tablets will be supplied due to a shortage of the current brand. Nardil S29 will be supplied via Section 29 of the Medicines Act 1981.

## Heparin Sodium (Pfizer) inj 5,000 iu per ml, 1 ml

We are listing an alternative presentation of heparin sodium 5,000 iu per ml, 1 ml injection (Pfizer brand, 5 injection pack size) due to an ongoing supply issue. Pfizer has provided additional information to pharmacies and wholesalers about the issue and how to order the alternative product.

## Tetracosactrin injections

From 1 May 2019, an alternative tetracosactrin (AU Synacthen S29) inj 250 mcg per ml, 1 ml ampoule will be supplied due to a shortage of the current brand. Synacthen S29 is an Australian product and will be supplied via Section 29 of the Medicines Act 1981.

## Diclofenac sodium

Three months all-at-once (STAT) dispensing will be reinstated for diclofenac sodium 75 mg long-acting tablets from 1 May 2019.

---

## Delistings

### Sodium aurothiomalate

All strengths of sodium aurothiomalate (Myocrisin) injection will be discontinued from 30 June 2019 due to a global supply issue. All strengths will be delisted from 1 March 2020. Alternative treatments for rheumatoid arthritis are available.

### Neocate LCP – delayed delisting

We are delaying the delisting date for Neocate LCP (amino acid formula) from 1 May 2019 to 1 August 2019 to allow more time for remaining stock.
