Antiretrovirals

Initial application — Confirmed HIV

Applications only from a named specialist. Approvals valid without further renewal unless notified.

Prerequisites(tick box where appropriate)

The patient has confirmed HIV infection

Note: Tenofovir disoproxil prescribed under endorsement for HIV is included in the count of up to 4 subsidised antiretrovirals.

Subsidies apply for a combination of up to four antiretroviral medications. The combination of a protease inhibitor and low-dose ritonavir given as a booster (either as part of a combination product or separately) will be counted as one protease inhibitor for the purpose of accessing funding to antiretrovirals.

Renewal — Confirmed HIV

Current approval Number (if known):.....

Applications only from a named specialist. Approvals valid without further renewal unless notified.

Prerequisites(tick box where appropriate)

The treatment remains appropriate and the patient is benefiting from treatment

Initial application — Prevention of maternal transmission

Applications only from a named specialist. Approvals valid for 1 year.

Prerequisites(tick boxes where appropriate)

Prevention of maternal foetal transmission
or
 Treatment of the newborn for up to eight weeks

Note: Tenofovir disoproxil prescribed under endorsement for HIV is included in the count of up to 4 subsidised antiretrovirals.

Subsidies apply for a combination of up to four antiretroviral medications. The combination of a protease inhibitor and low-dose ritonavir given as a booster (either as part of a combination product or separately) will be counted as one protease inhibitor for the purpose of accessing funding to antiretrovirals.

Some antiretrovirals are unapproved or contraindicated for this indication. Practitioners prescribing these medications should exercise their own skill, judgement, expertise and discretion, and make their own prescribing decisions with respect to the use of a Pharmaceutical for an indication for which it is not approved or contraindicated.

Initial application — post-exposure prophylaxis following non-occupational exposure to HIV

Applications only from a named specialist. Approvals valid for 4 weeks.

Prerequisites(tick boxes where appropriate)

Treatment course to be initiated within 72 hours post exposure
and
 Patient has had unprotected receptive anal intercourse with a known HIV positive person
or
 Patient has shared intravenous injecting equipment with a known HIV positive person
or
 Patient has had non-consensual intercourse and the clinician considers that the risk assessment indicates prophylaxis is required

Note: Tenofovir disoproxil prescribed under endorsement for HIV is included in the count of up to 4 subsidised antiretrovirals.

Subsidies apply for a combination of up to four antiretroviral medications. The combination of a protease inhibitor and low-dose ritonavir given as a booster (either as part of a combination product or separately) will be counted as one protease inhibitor for the purpose of accessing funding to antiretrovirals.

I confirm the above details are correct and that in signing this form I understand I may be audited.
