Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:
Name:	Name:
Ward:	NHI:
Extensively hydrolysed formula	
INITIATION Prerequisites (tick boxes where appropriate)	
O Cows' milk formula is inappropriate due to severe intole	rance or allergy to its protein content
or Soy milk formula has been reasonably trialled with	
O Soy milk formula is considered clinically inapprop	riate or contraindicated
or Severe malabsorption	
O Short bowel syndrome or	
O Intractable diarrhoea	
O Biliary atresia	
O Cholestatic liver diseases causing malsorption	
O Cystic fibrosis	
O Proven fat malabsorption	
O Severe intestinal motility disorders causing significant malabs	orption
or O Intestinal failure	
O For step down from Amino Acid Formula	
Note: A reasonable trial is defined as a 2-4 week trial, or signs of an immedia	ate IgE mediated allergic reaction.
CONTINUATION Prerequisites (tick boxes where appropriate)	
	o a cows' milk protein or soy infant formula has been undertaken
The outcome of the assessment is that the infant continues to	o require an extensively hydrolysed infant formula

I confirm that the above details are correct:
