Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBE	R PATIENT:
Name:	
Ward:	NHI:
Enteral liq	uid peptide formula
INITIATION Prerequisite	es (tick boxes where appropriate)
and	Patient has impaired gastrointestinal function and either cannot tolerate polymeric feeds, or polymeric feeds are unsuitable
	O Severe malabsorption
	O Short bowel syndrome
	O Intractable diarrhoea
	O Biliary atresia
	Cholestatic liver diseases causing malabsorption
	O Cystic fibrosis
	O Proven fat malabsorption
	Severe intestinal motility disorders causing significant malabsorption
	O Intestinal failure
	O The patient is currently receiving funded amino acid formula
	The patient is to be trialled on, or transitioned to, an enteral liquid peptide formula
and	
	O A semi-elemental or partially hydrolysed powdered feed has been reasonably trialled and considered unsuitable
	O For step down from intravenous nutrition
Note: A reas	sonable trial is defined as a 2-4 week trial.
CONTINUAT Prerequisite	CION es (tick boxes where appropriate)
and	An assessment as to whether the patient can be transitioned to a cows milk protein or soy infant formula or extensively hydrolysed formula has been undertaken
	The outcome of the assessment is that the patient continues to require an enteral liquid peptide formula

I confirm that the above details are correct:
