Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:					
Name:	Name:					
Ward:	NHI:					
Cinacalcet						
INITIATION – parathyroid carcinoma or calciphylaxis Re-assessment required after 6 months Prerequisites (tick boxes where appropriate) O Prescribed by, or recommended by a nephrologist or endocrinologist the Health NZ Hospital. and The patient has been diagnosed with a parathyroid care	st, or in accordance with a protocol or guideline that has been endorsed by					
and	ium greater than or equal to 3 mmol/L) despite previous first-line					
The patient has been diagnosed with calciphylaxis (cal and The patient has symptomatic (e.g. painful skin ulcers)	cific uraemic arteriolopathy) hypercalcaemia (serum calcium greater than or equal to 3 mmol/L) irst-line treatments including bisphosphonates and sodium thiosulfate					
CONTINUATION – parathyroid carcinoma or calciphylaxis Prerequisites (tick boxes where appropriate) O Prescribed by, or recommended by a nephrologist or endocrinologist, or in accordance with a protocol or guideline that has been endorsed by the Health NZ Hospital. and The patient's serum calcium level has fallen to < 3mmol/L and						
The patient has experienced clinically significant symptom in						
Note: This does not include parathyroid adenomas unless these have become malignant. INITIATION – primary hyperparathyroidism Prerequisites (tick boxes where appropriate)						
Patient has primary hyperparathyroidism O Patient has hypercalcaemia of more than 3 mmol/L with Or O Patient has hypercalcaemia of more than 2.85 mmol/L and O Surgery is not feasible or has failed and O Patient has other comorbidities, severe bone pain, or calciphy	with symptoms					

I confirm that the above details are correct:
