HOSPITAL MEDICINES LIST RESTRICTIONS CHECKLIST

Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:
Name:	Name:
Ward:	NHI:
Sunitinib	
INITIATION – RCC Re-assessment required after 4 months	
Prerequisites (tick boxes where appropriate)	
The patient has metastatic renal cell carcinoma	
${\rm O}~$ The patient has not previously received funded sunitinib	
CONTINUATION – RCC Re-assessment required after 4 months	
Prerequisites (tick box where appropriate)	
O No evidence of disease progression	
INITIATION – GIST Re-assessment required after 3 months Prerequisites (tick boxes where appropriate)	
The patient has unresectable or metastatic malignant gastrointestinal stromal tumour (GIST)	
O The patient's disease has progressed following treatment with imatinib	
O The patient has documented treatment-limiting intoleran	ce, or toxicity to, imatinib
CONTINUATION – GIST	
Re-assessment required after 6 months Prerequisites (tick boxes where appropriate)	
The patient has responded to treatment or has stable disease as determined by Choi's modified CT response evaluation criteria as follows:	
O The patient has had a complete response (disappearan	ce of all lesions and no new lesions)
(HU) of 15% or more on CT and no new lesions and no	ize of 10% or more or decrease in tumour density in Hounsfield Units obvious progression of non-measurable disease)
O The patient has stable disease (does not meet criteria the symptomatic deterioration attributed to tumour progress	ne two above) and does not have progressive disease and no ion
and O The treatment remains appropriate and the patient is benefitin	g from treatment
CONTINUATION – GIST pandemic circumstances	
Re-assessment required after 6 months Prerequisites (tick boxes where appropriate)	
O The patient has unresectable or metastatic malignant gastroin and	testinal stromal tumour (GIST)

 $O\,$ The patient is clinically benefiting from treatment and continued treatment remains appropriate and

O Sunitinib is to be discontinued at progression

The regular renewal requirements cannot be met due to COVID-19 constraints on the health sector

I confirm that the above details are correct:

HOSPITAL MEDICINES LIST RESTRICTIONS CHECKLIST

Use this checklist to determine if a patient meets the restrictions for funding in the hospital setting. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:
Name:	Name:
Ward:	NHI:

Sunitinib - continued

Note: GIST - It is recommended that response to treatment be assessed using Choi's modified CT response evaluation criteria (J Clin Oncol, 2007, 25:1753-1759). Progressive disease is defined as either: an increase in tumour size of 10% or more and not meeting criteria of partial response (PR) by tumour density (HU) on CT; or: new lesions, or new intratumoral nodules, or increase in the size of the existing intratumoral nodules.

I confirm that the above details are correct:
