Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:			
Name:	Name:			
Ward:	NHI:			
Venetoclax				
INITIATION – relapsed/refractory chronic lymphocytic leukaemia				
Re-assessment required after 7 months  Prerequisites (tick boxes where appropriate)				
(lick boxes where appropriate)				
O Individual has chronic lymphocytic leukaemia requiring treatme	ent			
O Individual has received at least one prior therapy for chronic ly	mphocytic leukaemia			
Individual has not previously received funded venetoclax				
The individual's disease has relapsed				
Venetoclax to be used in combination with six 28-day cycles of rituximab commencing after the 5-week dose titration schedule with venetoclax				
O Individual has an ECOG performance status of 0-2				
CONTINUATION – relapsed/refractory chronic lymphocytic leukaemia Re-assessment required after 6 months Prerequisites (tick boxes where appropriate)  Or Treatment remains clinically appropriate and the individual is benefitting from and tolerating treatment and Or Venetoclax is to be discontinued after a maximum of 24 months of treatment following the titration schedule unless earlier discontinuation is required due to disease progression or unacceptable toxicity  INITIATION – previously untreated chronic lymphocytic leukaemia with 17p deletion or TP53 mutation* Re-assessment required after 6 months Prerequisites (tick boxes where appropriate)				
Individual has previously untreated chronic lymphocytic leukae				
There is documentation confirming that the individual has 17p and _	deletion by FISH testing or TP53 mutation by sequencing			
O Individual has an ECOG performance status of 0-2				
CONTINUATION – previously untreated chronic lymphocytic leukaemia with 17p deletion or TP53 mutation* Re-assessment required after 6 months Prerequisites (tick box where appropriate)  O No evidence of disease progression Note: 'Chronic lymphocytic leukaemia (CLL)' includes small lymphocytic lymphoma (SLL)* and B-cell prolymphocytic leukaemia (B-PLL)*. Indications marked with * are unapproved indications				

I confirm that the above details are correct:

## HOSPITAL MEDICINES LIST RESTRICTIONS CHECKLIST

Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRES	CRIE	BER	PATIENT:		
Name	e:		Name:		
Ward	:		NHI:		
Vene	etocl	ax - continued			
INITIATION – previously untreated acute myeloid leukaemia Re-assessment required after 6 months					
Prerequisites (tick boxes where appropriate)		·			
	O The individual is currently on treatment with venetoclax and met all remaining special authority criteria prior to commencing treatment or				
	O Individual has previously untreated acute myeloid leukaemia (see note a), according to World Health Organization (WHO) Classification				
		O Venetoclax not to be used in combination with standard intensive remission induction chemotherapy and			
		O Venetoclax to be used in combination with azacitidine or	low dose cytarabine		
CONTINUATION – previously untreated acute myeloid leukaemia Re-assessment required after 6 months Prerequisites (tick box where appropriate)					
( Note		No evidence of disease progression			
a) 'Acute myeloid leukaemia' includes myeloid sarcoma*					
b) Ir	b) Indications marked with * are Unapproved indications
