HOSPITAL MEDICINES LIST RESTRICTIONS CHECKLIST

Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER				PATIENT:	
Name:				Name:	
Ward:				NHI:	
Tica	grel	or			
INIT Prer	equi	Restr		or patients who have recently (within the last 60 days) been diagnosed with and in whom fibrinolytic therapy has not been given in the last 24 hours and	
Re-a	sses	smer	thrombosis prevention neurological stenting nt required after 12 months (tick boxes where appropriate)		
	and	or or	O Patient is about to have a neurological stenting proced O Patient has demonstrated clopidogrel resistance using assay and requires antiplatelet treatment with ticagrelogore	the P2Y12 (VerifyNow) assay or another appropriate platelet function	
Re-a	sses	sites	DN – thrombosis prevention neurological stenting nt required after 12 months (tick boxes where appropriate) Patient is continuing to benefit from treatment Treatment continues to be clinically appropriate		
INITIATION – Percutaneous coronary intervention with stent deployment Re-assessment required after 12 months Prerequisites (tick boxes where appropriate) Patient has undergone percutaneous coronary intervention and					
	and	O	Patient has had a stent deployed in the previous 4 weeks Patient is clopidogrel-allergic**		
	equi	sites	Stent thrombosis (tick box where appropriate) ent has experienced cardiac stent thrombosis whilst on clopido	grel	
Re-a	equi	smer sites	Myocardial infarction nt required after 1 week (tick box where appropriate) short term use while in hospital following ST-elevated myocard	al infarction	
I conf	irm th	nat the	e above details are correct:

Use this checklist to determine if a patient meets the restrictions for funding in the **hospital setting**. For more details, refer to Section H of the Pharmaceutical Schedule. For community funding, see the Special Authority Criteria.

PRESCRIBER	PATIENT:				
Name:	Name:				
Ward:	NHI:				
Ticagrelor - continued					
INITIATION – acute minor stroke or high-risk transient ischemic attack (T Prerequisites (tick boxes where appropriate)	TIA)*				
O Patient has been diagnosed with a minor stroke (NIHSS† score 3 or less), high-risk TIA (ABCD2 score 4 or more) or Crescendo TIA and					
O Patient is expected to be a poor metaboliser of clopidogroup or O Patient is allergic to clopidogrel**	rel, with documented clinical rationale				
Ticagrelor to be prescribed for a maximum of 21 days following	g minor stroke or TIA				
CONTINUATION – subsequent minor stroke or high-risk transient ischemic attack Re-assessment required after 1 month					
Prerequisites (tick box where appropriate)					
O Patient has been diagnosed with a minor stroke (NIHSS score 3 or I Crescendo TIA	ess), high-risk transient ischemic attack (ABCD2 score 4 or more) or				
Note: Indications marked with * are unapproved indications. Note: Note:** Clopidogrel allergy is defined as a history of anaphylaxis, urtic non-asthmatic patients) developing soon after clopidogrel is started and is any other treatment Note: Note:NIHSS† National Institutes of Health Stroke Scale.					

I confirm that the above details are correct:
