	Address:	
Fax Number:		Fax Number:
Sirolimus (Rapamune)		
Initial application Applications from any medical practitioner. Appro	ovals valid without further renewal unless notified.	
The drug is to be used for rescue therapy. Note: Rescue therapy defined as unresponsive to treatment due to any of the following:	by for an organ transplant recipient by calcineurin inhibitor treatment as defined by refracto	ry rejection; or intolerant to calcineurin inhibitor
• GFR< 30 ml/min; or		
Rapidly progressive transplant vasculopathy;	or	
Rapidly progressive obstructive bronchiolitis; of	or	
HUS or TTP; or		
Leukoencepthalopathy; or		
Significant malignant disease		
Initial application — severe non-malignant lyn Applications from any relevant practitioner. Appro Prerequisites(tick boxes where appropriate)		
Patient has severe non-malignan	t lymphovascular malformation*	
Malformations are not adec	quately controlled by sclerotherapy and surgery	
Malformations are widespro	ead/extensive and sclerotherapy and surgery are not o	considered clinically appropriate
Sirolimus is to be used to re	educe malformation prior to consideration of surgery	
and Patient is being treated by a spec	ialist lymphovascular malformation multi-disciplinary t	eam
	as defined by RECIST version 1.1 (see Note)	

I confirm the above details are correct and that in signing this form I understand I may be audited.
